Saumit

InterGlobe Pvt Ltd

Helping you get ahead

Saumit Group, a multifaceted enterprise offers its customers a broad range and versatile services in the composite industry. We have an unparalleled experience of supplying both conventional and unconventional equipment to the composites' fraternity in India. This keeps us abreast of our esteemed customers' day-to-day requirement and about the latest in the industry.

We represent CNBM International Corporation, China (a wholly owned subsidiary of CNBM Group, a fortune 500 company) to promote their FRP Equipment in India. We also represent CPIC (Chongqing Polycomp International Corporation) for select customers and markets to supply their entire range of glass fibers.

Owing to our experience of more than 2 decades in the chemical industry, we deal in Specialty Chemicals, Solvents for Non ferrous Metal Recovery (through Hydro Metallurgy), Dyestuff and Pigment Intermediates, Pigments, APIs, Pharmaceutical Intermediates, Contract Manufacturing, et al. Our approach combines insight and innovation from multiple disciplines with business and industry knowledge to help customers excel globally.

Saumit Group can counsel on international business development as well as strategic partnerships. The group can serve as importers, suppliers and indenting agent for the product range as narrated above.

Our Vision:

Our principals and business partners capitalize on our broad knowledge of local markets, network and position in the region. Saumit group's continued rapid growth is a testimony to the certainty our customers experience every day. Built on more than two decades of experience, we add real value to our customers through our knowledge and experience.

We aim to provide most cost effective and latest products to our customers across India as well as other markets; globally. The business module would allow the company to focus on developing an overall approach that would have both commercial and technical understanding of the customer's need.

We aim to re-invent the conventional business model of Trading.....

We strive to provide a seamless experience across all our customers that leverage our diverse knowledge and expertise to deliver custom, quality solutions faster and in conformity with local regulatory requirements and cultural preferences.

Experience the Saumit Advantage...

- A reliable strategic business partner
- Deep rooted in the local market, understanding market complexity and having excellent business relationship with it's customers.
- A financially stable and dependable partner; having more than 2 decades of experience & knowledge of international business, understanding it's complexities and so forth.
- A global network of experts and the ability to adapt to the businesses that we serve in any local market.
- Services and infrastructure from a single source, meaning lower cost, enhanced transparency, and greater accountability.

Our mission:

To fully utilize our knowledge, creativity and collaborations to build relationships that create sustainable growth and reward for our company and our partners, in the ever changing, vibrant global marketplace.

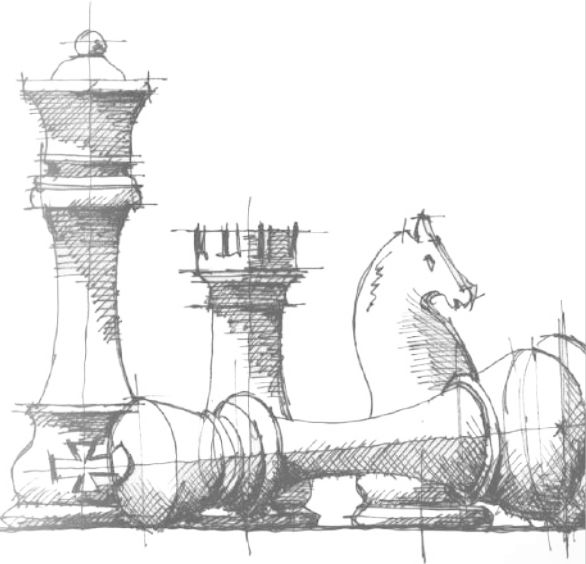

Our Values:

Our values guide our business and our behavior, inspiring us to deliver the best possible services to our clients and customers, and helping them to grow their businesses.

- Genuine, Trustworthy with a high level of integrity
- Passionate
- Committed & Relationship builders
- Pragmatic
- Entrepreneurial & Growth Oriented

Expertise

Services....Feel secure and in control using our services

Be close to the vendor without actually being "there". We can help your business procure goods internationally. We work directly with local manufacturers in China and other low-cost countries that are experienced and qualified in their area of production. Your goods will be custom-made according to your specifications and mass produced at globally competitive prices.

We never compromise product standards and the goods that meet your specifications will be shipped.

Executing International trade transactions can pose risk, drain resources and time.

Finding qualified manufacturers in foreign markets and successfully executing international trade transactions can drain considerable amount of time and resources. We can handle such project needs from start to finish.

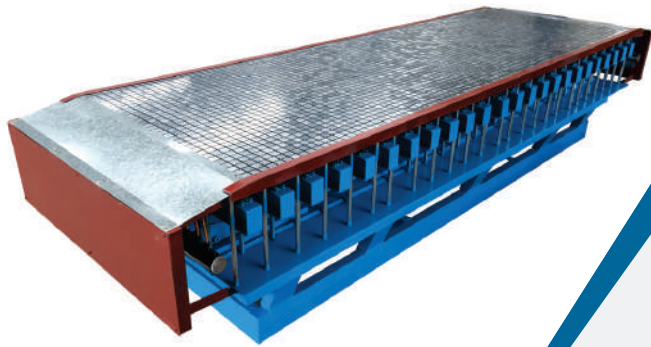

FRP Equipment:

Saimit exclusively represents CNBM International Corporation; a subsidiary of CNBM Group, a state owned, FORTUNE 500 Chinese conglomerate for promoting their entire range of Composite Equipments. The Range includes;

FRP Rebar Pull-Winding Machine

- Entire Range

Moulded Grating Machines

- Square Mesh
- Rectangular Mesh
- Mini Mesh
- Micro Mesh

Filament Winding Machines

- DN 300 to DN 4000 with Wet Sand Addition Technology (Tap Winding)

Vertical Winding Machines

- Dimension: 12 m dia. X 25 m height (approx. 3000 m³ – 3000 KL tanks).

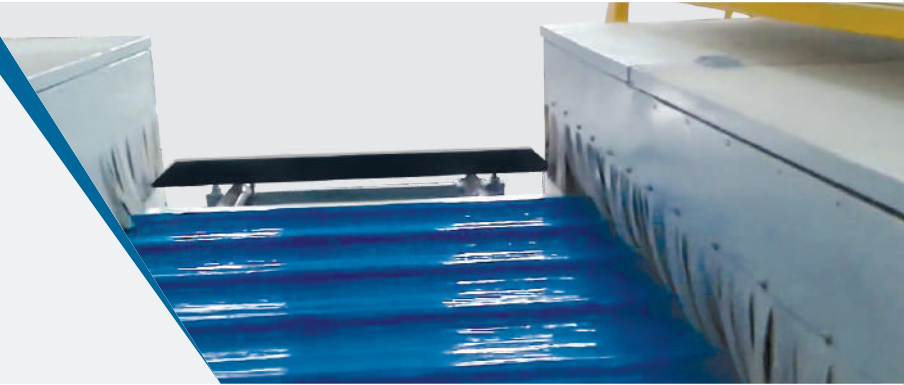

4-Axis Filament Winding Machines

- Pressure Tanks.

Continuous Sheet Lamination Machines

- 1.5 m and 3 m width and 6 to 9 meters per minute production speed.

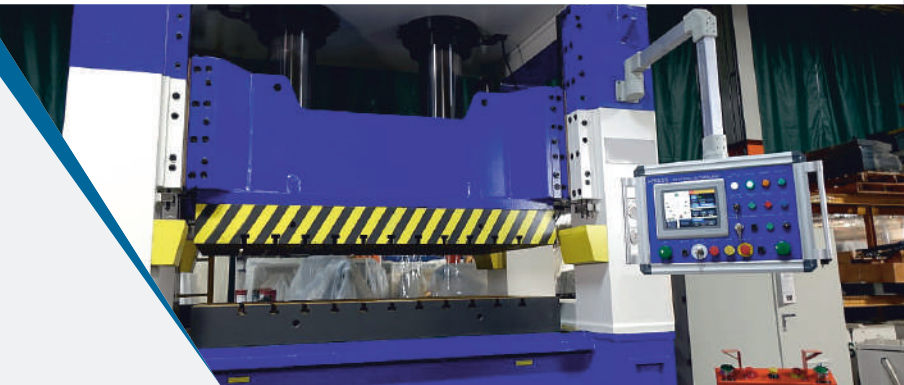

SMC Sheet Production Line

- Width upto 1000 mm

Hydraulic Press

- Entire range

Surface Polishing Machine for Moulded Grating

Raw Materials for FRP Industry

We at Saumit have an entire range of Glass Fiber raw materials required for FRP industry.

E-Glass Direct Roving

- 200 tex - 9600 tex

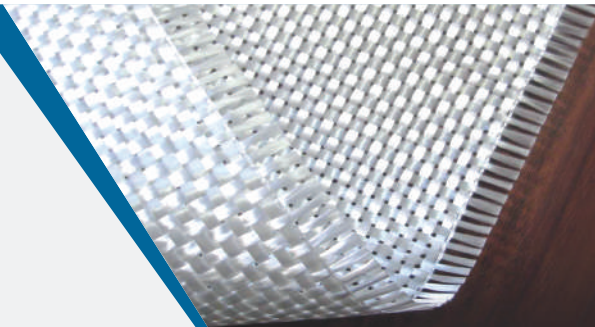

E-Glass Assembled Roving

- SMC Roving
- Panel Roving
- Chop Roving

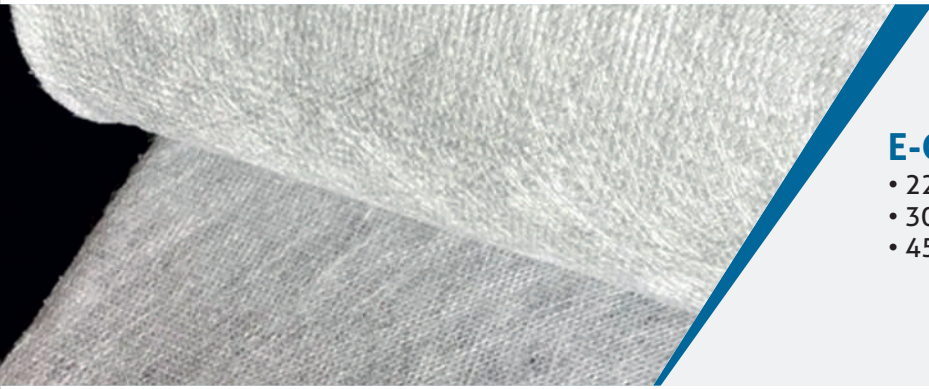

E-Glass Woven Roving

- 360 GSM
- 400 GSM
- 600 GSM

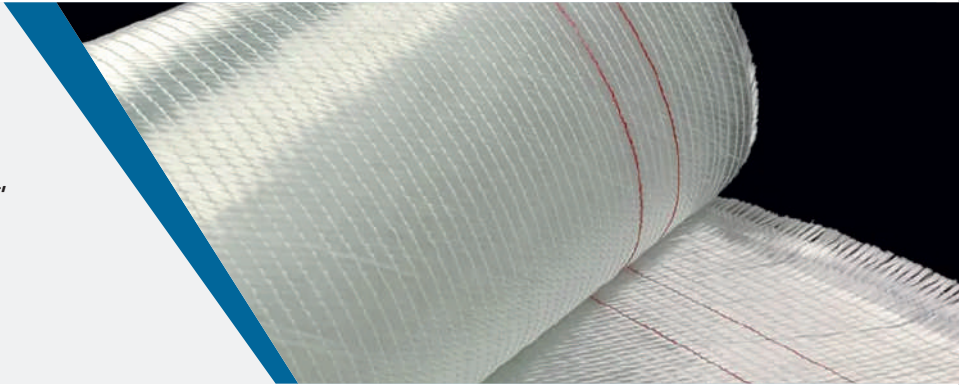

E-Glass Chopped Strand Mat

- Emulsion Bonded
- Powder Bonded

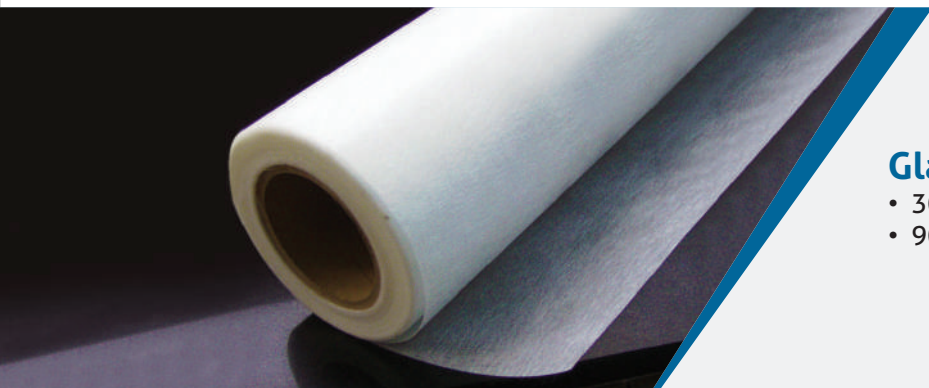

E-Glass Stitch Mat

- 225 GSM
- 300 GSM
- 450 GSM

Technical Fabric

- Multi-Axial Fabrics: Unidirectional, Biaxial, Triaxial, Quadriaxial
- 3-D two decklayers woven fabrics

Glass Fiber Surface Tissue

- 30 GSM
- 90 GSM

Chopped Strands for Thermosetting

- BMC, Phenolic Resin

Wet Chopped Strands

- Entire Range

Glass fiber for Thermoplastics (Chopped Strands & LFT)

We have a complete range of chopped strands. LFT (Long fiber technology) is also evolving very fast in thermoplastic application.

Chopped Strands

- Polyamide (PA, Nylon 6/66)
- Polypropylene (PP)
- Polybutylene Terephthalate (PBT)
- Acrylonitrile Butadiene Styrene (ABS)
- Poly(p-phenylene ether) (PPE)

Long Fiber reinforced Thermoplastic

Better in usability. It is suitable for the universal product of twin-screw process.

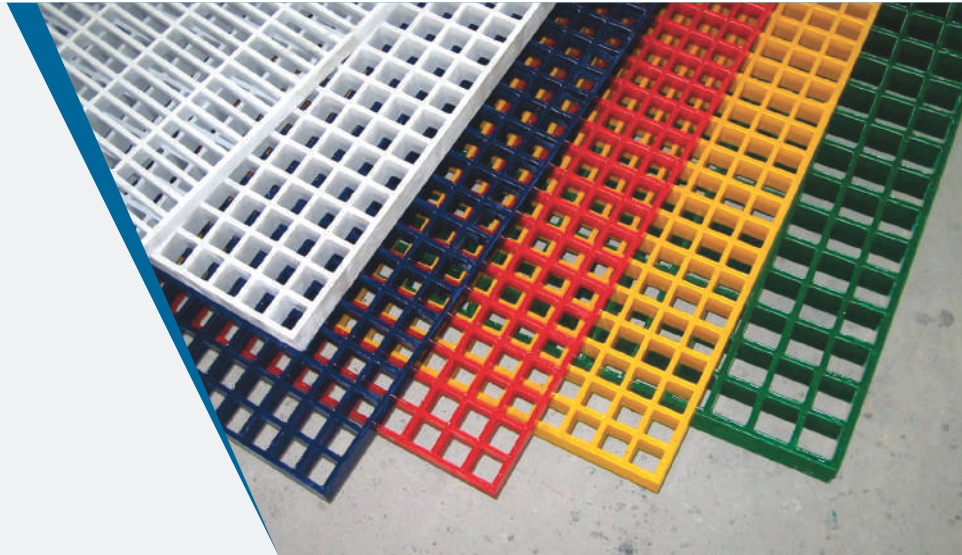

- Polyamide (PA)
- Polypropylene (PP)

Export Products

FRP Products

FRP Moulded Grating

- Square Mesh
 - Rectangular Mesh
 - Mini Mesh
 - Micro Mesh
- With Concave Top, Grit Top, Smooth Top, Patterned Top

Pultrusion Profiles

- Angle
- C-Channel
- I-Beam
- Square Pipe
- Rectangle Pipe
- Cooling Tower & Cable Tray Profiles

FRP Tanks and Vessels

- High mechanical strength
- High chemical inertness
- Resistant to weathering
- Low thermal and electrical conductivity
- Long life
- No-toxicity
- No need for maintenance
- Light weight

A COMPLETE SOLUTION FOR COMPOSITE INDUSTRY

F-55, Phase II, Indiabulls MegaMall, Dinesh Mill Road, Vadodara - 390007, Gujarat, INDIA.
